Since 2006, Cesar de Paepe joined the Saint-Pierre University Hospital in the IRIS network (public hospital service group that includes the 5 public hospitals of Brussels)

Cesar de Paepe offers multi-disciplinary care. The vaccination and travel clinic, also called « travel clinic » settled first; then the senology centre and the pilot centre for breast cancer prevention joined in.

We took part in the renewal of various department.

Project contractors:
Architect: Bureau d’Architecture Engineering Verhaegen SA (BAEV)
Technical department: M&R Engineering
Medigal gas installer: Heyer Benelux
